

FOR YOUR INFORMATION

PRESS RELEASE

LEAN, GREEN FALCON MACHINES

Falcon Foodservice Equipment has been awarded the environmental standard ISO 14001 certification.

As a manufacturer, it is essential to improve business performance whilst at the same time, we strive to reduce the impact of our activities on climate change.

Anyone who has visited the Stirling facility will understand that preserving the environment is close to our hearts. Not only that, we respect that customers want us to do better as well to provide energy efficient appliances for their businesses.

Energy, sustainability and ecological awareness is promoted throughout the AFE group. Williams was first to launch CFC free foam in commercial refrigeration and Eloma's reduced energy, low water usage combination ovens are also designed to be more resource-friendly.

The award is the culmination of 18 months hard work by everyone at Falcon and reinforces the group-wide ecological ethos.
